

Cartier Quartzite

- Fresh & Understated Elegance
- Subtle, Clean, and Elegant

About Us

The company is located in Shuitou, Fujian—renowned as the “Stone Capital of the World”—with over a decade of experience.

As a comprehensive stone service provider, we combine global trade, smart manufacturing, and turnkey whole-house solutions.

With advanced production lines for marble and premium stone, we achieve an annual output of over 500,000 m² and a production value exceeding RMB 300 million.

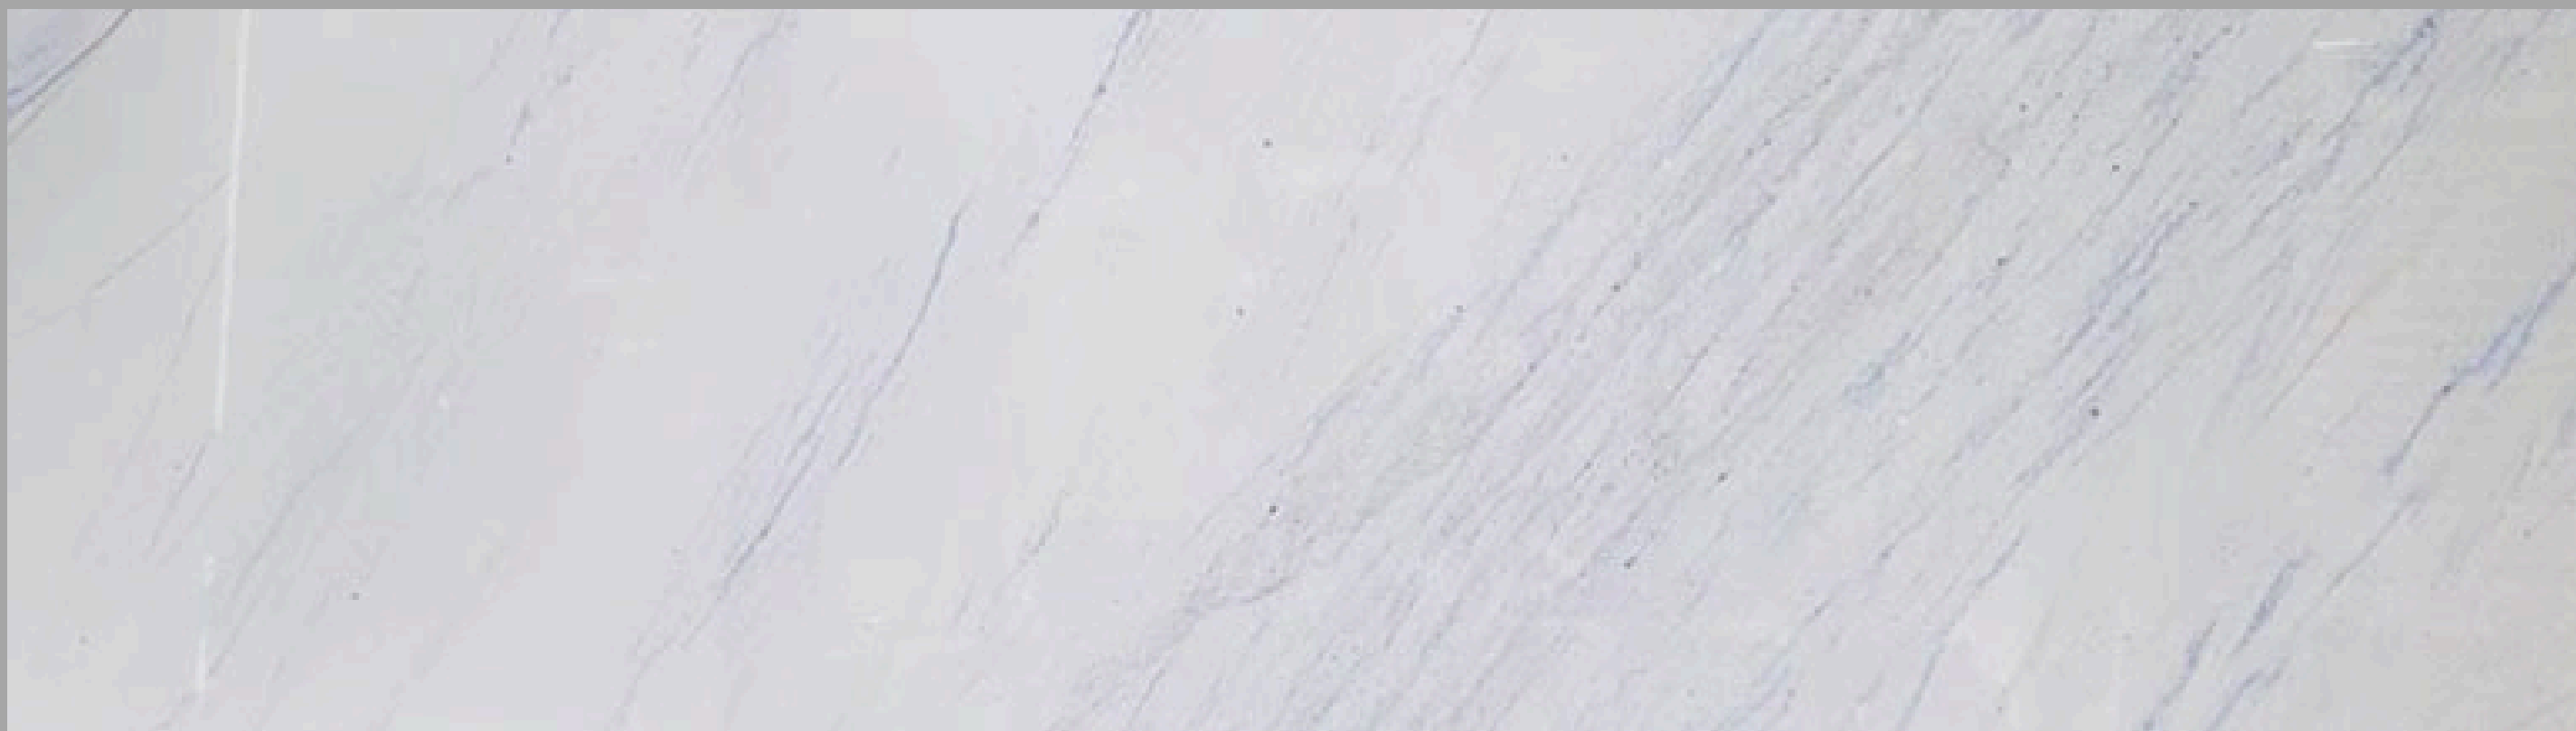

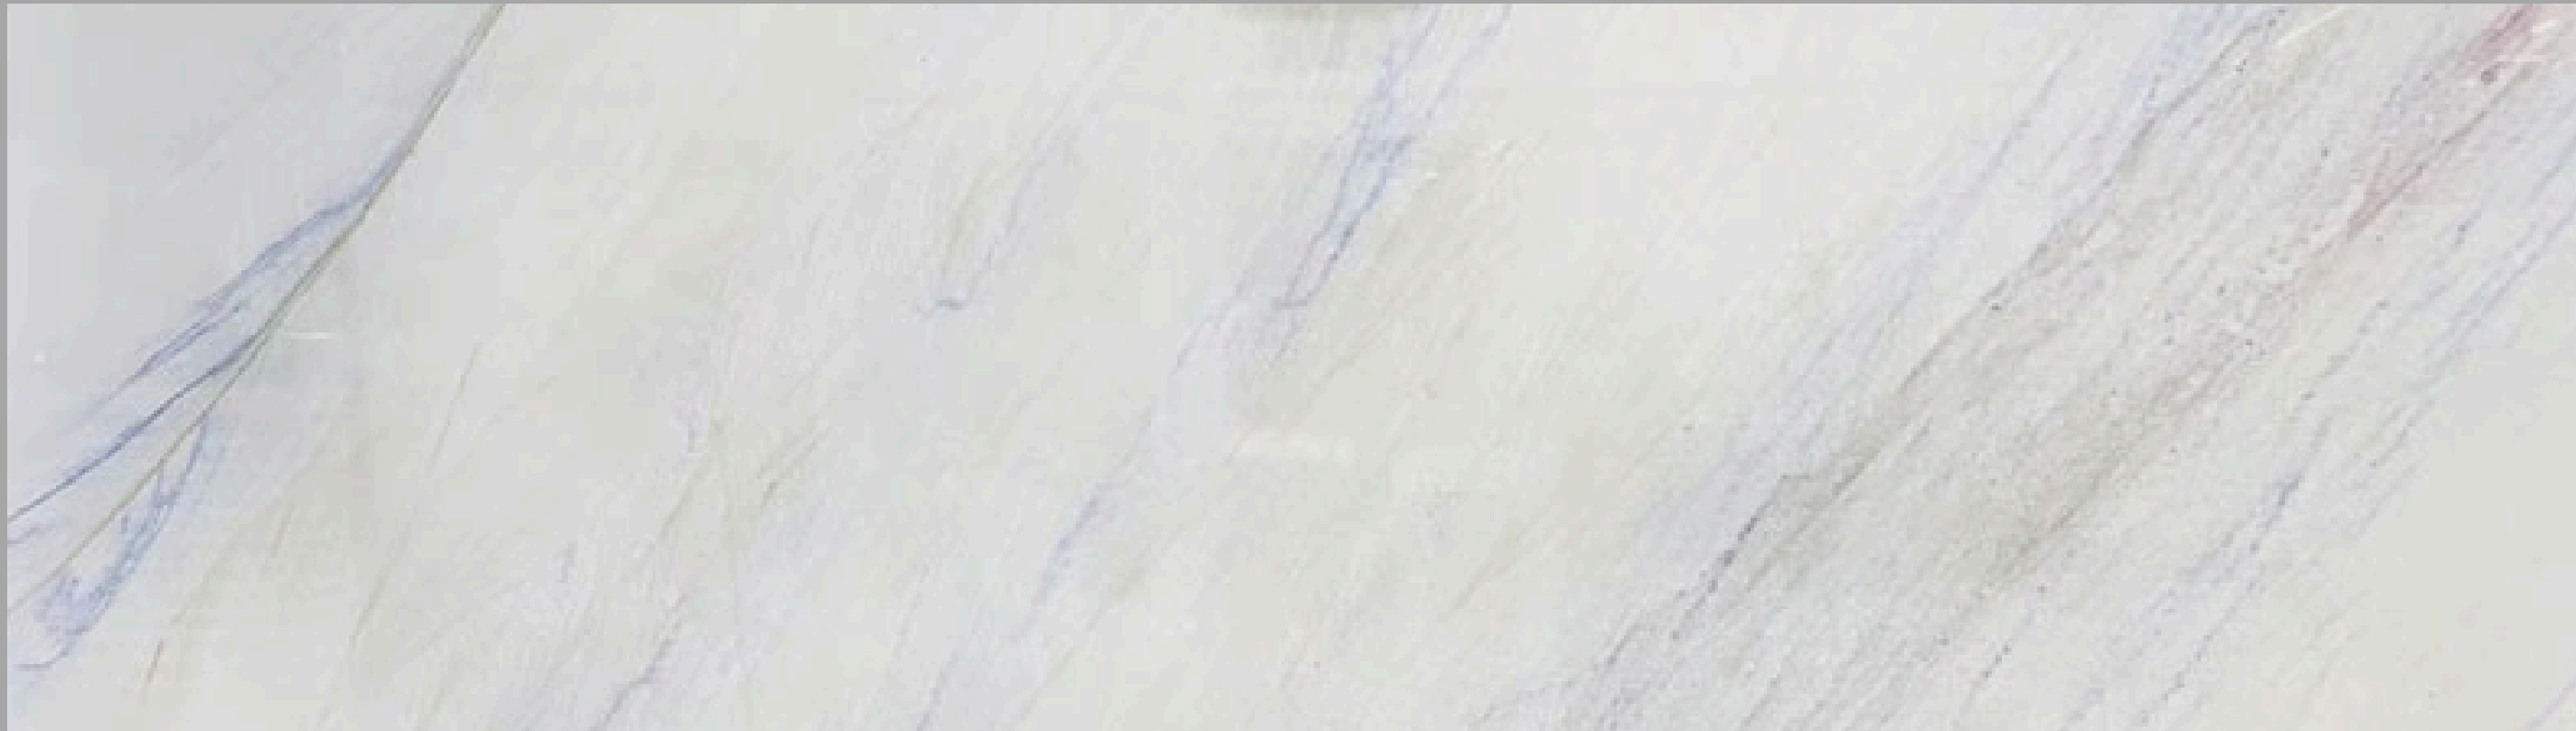

We specialize in unique and exclusive quarry resources, including premium stones such as Bolivia Blue, Cartier, and Silver Fox.

Our portfolio focuses on a full range of Brazilian premium natural stones, along with artistic stones such as Landscape Marble.

Our collection includes over 100 high-end varieties, such as Oriental White Jade, Pandora, Emerald Quartzite, and Tiffany.

Cartier Quartzite

Mohs Hardness of 7 – Highly scratch-resistant, second only to diamond in hardness

High Density – Resistant to stains and low permeability

Stable Structure – Durable, anti-aging, and colorfast

Corrosion Resistant – Excellent resistance to acids and alkalis

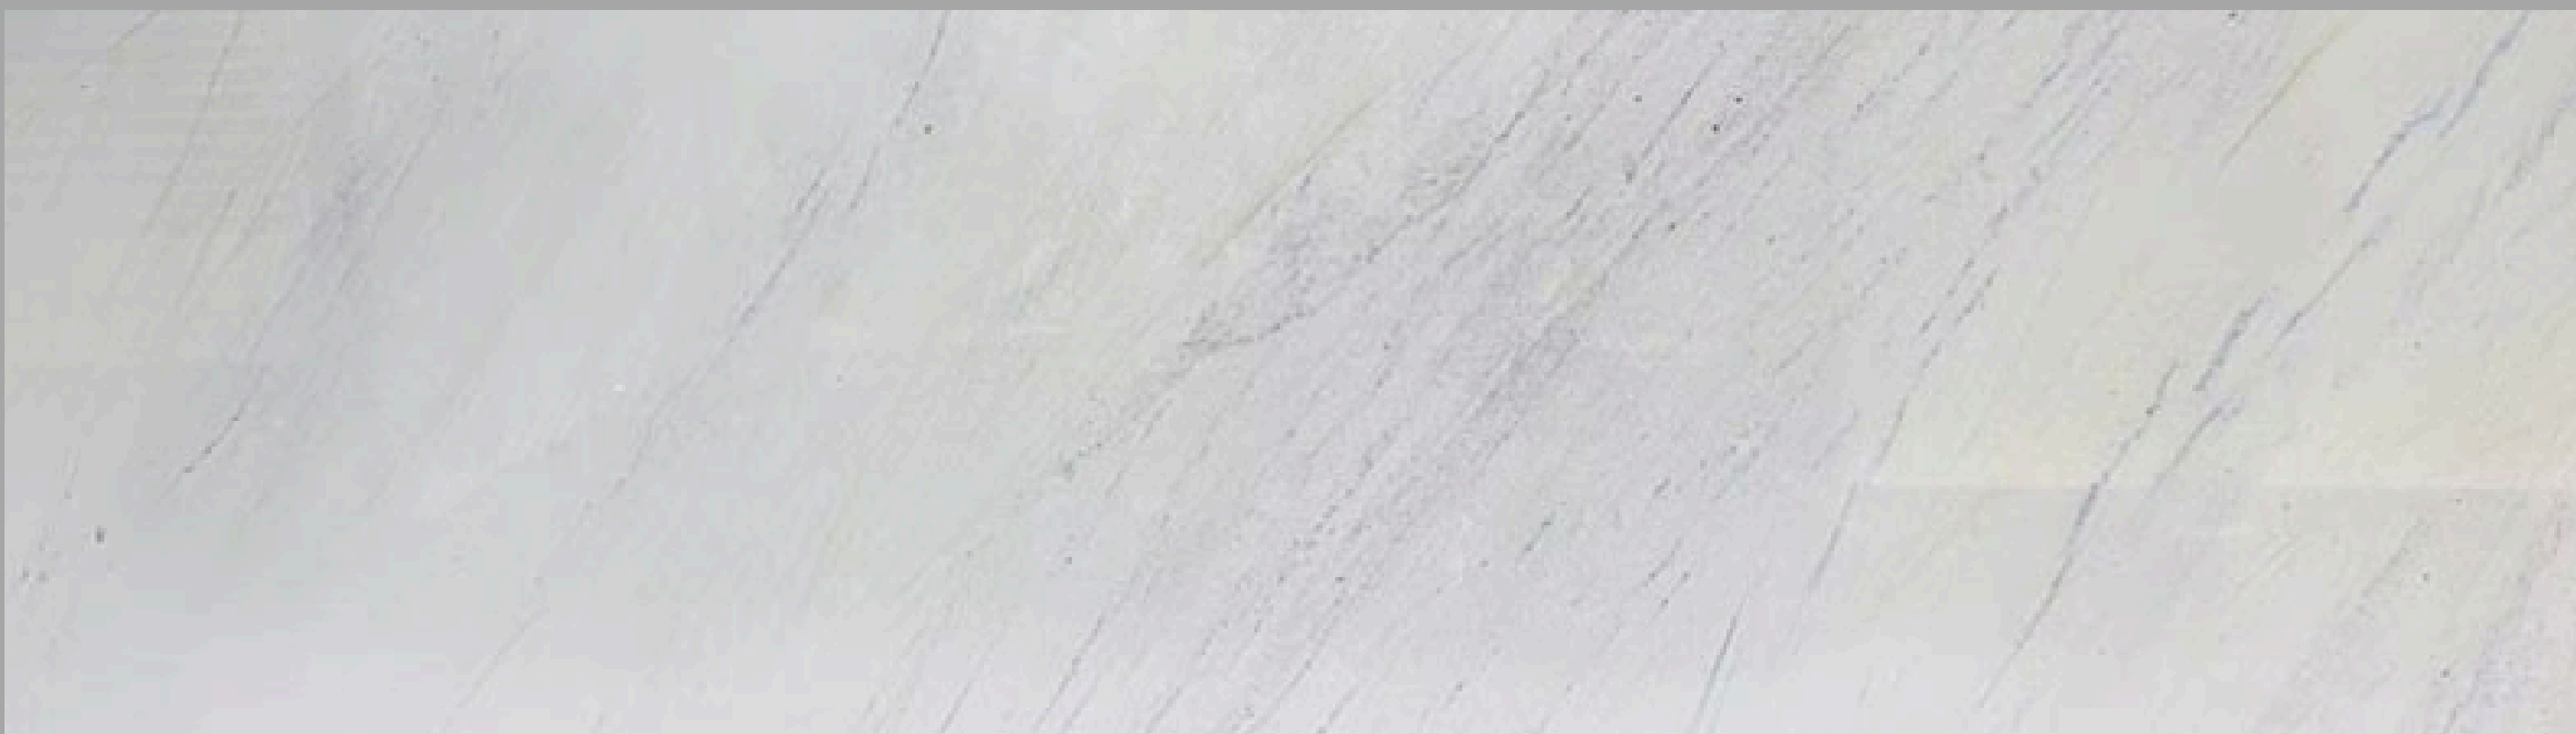

Origin: Brazil

Style:

Like the first snow under warm sunlight—natural, soft, and understated.

Applications:

Suitable for countertops, wall and floor coverings, as well as kitchen and bathroom spaces.

Showcase

- Distinctive Patterns · Enhanced
- Depth Cartier Quartzite Flooring
- Understated Luxury & Elegance

The blue and pink veining resembles the first glow of dawn,
flowing and interweaving in varying shades and widths.
Subtle and refined, it enhances the overall aesthetics and
modern appeal of the space.
